

Local hunter Award

Every year after hunting season is over during the Association of Nature Conservation Organizations of Tajikistan annual meeting, local hunters choose one client, who was the toughest hunter – good shape, well shooter, great knowledge about conservation and hunting, patience to the tough conditions of the hunt. The selected person will be awarded by Association of Nature Conservation Organizations of Tajikistan members. This is a local made statuette of the hunted species – Association of Nature Conservation Organizations of Tajikistan LOCAL HUNTER AWARD. It is a big pleasure for Association of Nature Conservation Organizations of Tajikistan hunters to award someone, who close by “blood” – almost traditional local hunter!
